

Your Proven Source for Premier Beefmaster Genetics

At the forefront of producing outstanding, balanced females.

At Collier Farms we are continually striving to bring you the most complete and balanced premier Beefmaster genetics through:

- Performance Testing, Measuring & Reporting
- Universal DNA Typing & Parent Verification
- Ultrasounding for Carcass Merit Management
- Strict Culling for Udder Design, Underlines & Color
- Selection & Use of Predictable, Proven Pedigrees
- Requiring Performance in a Commercial Environment
- Maintaining a Consistent Breeding Plan & Direction
- Use of Genetic Technologies in ET, IVF & AI
- Mandating Operations be Profitable & Sustainable
- Unwavering Dedication to Customer Satisfaction
